

# Laerdal Compact Suction Unit 4

# Compact and powerful

The LCSU 4 is our most advanced compact suction unit. Weighing only 1.5 kg and having a flow rate of 30 liters/minute, the LCSU 4 is the perfect tool for first responders and medical personnel. The disposable canister that clicks in place removes the hassle of external tubing that could slow down the rescue process. With vacuum ranging from 50-550 mmHg (66-733 bar), this portable suction unit can be used on all patients, from newborns to adults. With the pediatric range indicator and LED display, the LCSU 4 makes suctioning in the most difficult situations, easier. The LCSU 4 offers two canister sizes, the smaller 300 ml canister and the larger 800 ml canister. This compact suction unit has a battery life of up to 45 minutes continuous use on free flow suction, allowing healthcare providers to tackle the toughest challenges.
